

Tony Phillips, MD

Dr. Tony Phillips owned and operated clinical sports medicine and rehab facilities for over 20 years prior to moving into hospital leadership in 2016. Since 2016, he has overseen sports medicine outreach development, management and acquisitions for 3 Hospitals in the Kansas City Metropolitan.

Currently, he assists in oversight of the largest sports medicine outreach program in Kansas City, comprising of 23 athletic trainers at 14 different locations ranging from middle schools, high schools and NCAA Division II Universities.

In addition, Tony serves as the system-wide Director of Strategic Growth and Development at Liberty Hospital in North Kansas City. Tony is responsible for the evaluation and recommendation of service growth and the development/maintenance of the Hospital's presence within the community through group event participation and personal networking.

Tony plays a significant role in workforce development. He is a key participant in the transformation and maintenance of Liberty Hospital's workforce culture.

Over the past 3 years, Tony has performed sports medicine consulting services to both Universities and Hospitals. He helps his clients maximize the university/health partner relationship as well as assisting in the development of sustainable sports medicine outreach operations and structures.
